

TURNBAR[®]

airbar

TURNBARairbar Unique versatile solution for sports and games.

Freedom for admAIRable performances. Designed for trainings, events, shows and workshops the traverse system can be stored in a handy disassembled form to save space and can be easily transported.

Whether with rope, vertical scarf, trapeze or ring - the mounting points open up „dizzying“ possibilities and are also suitable for playful use by children and young people.

INDOOR & OUTDOOR
ON THE GROUND & IN THE AIR
LIGHT WEIGHT, STABLE & SUSTAINABLE
EASY TRANSPORT AND ASSEMBLY

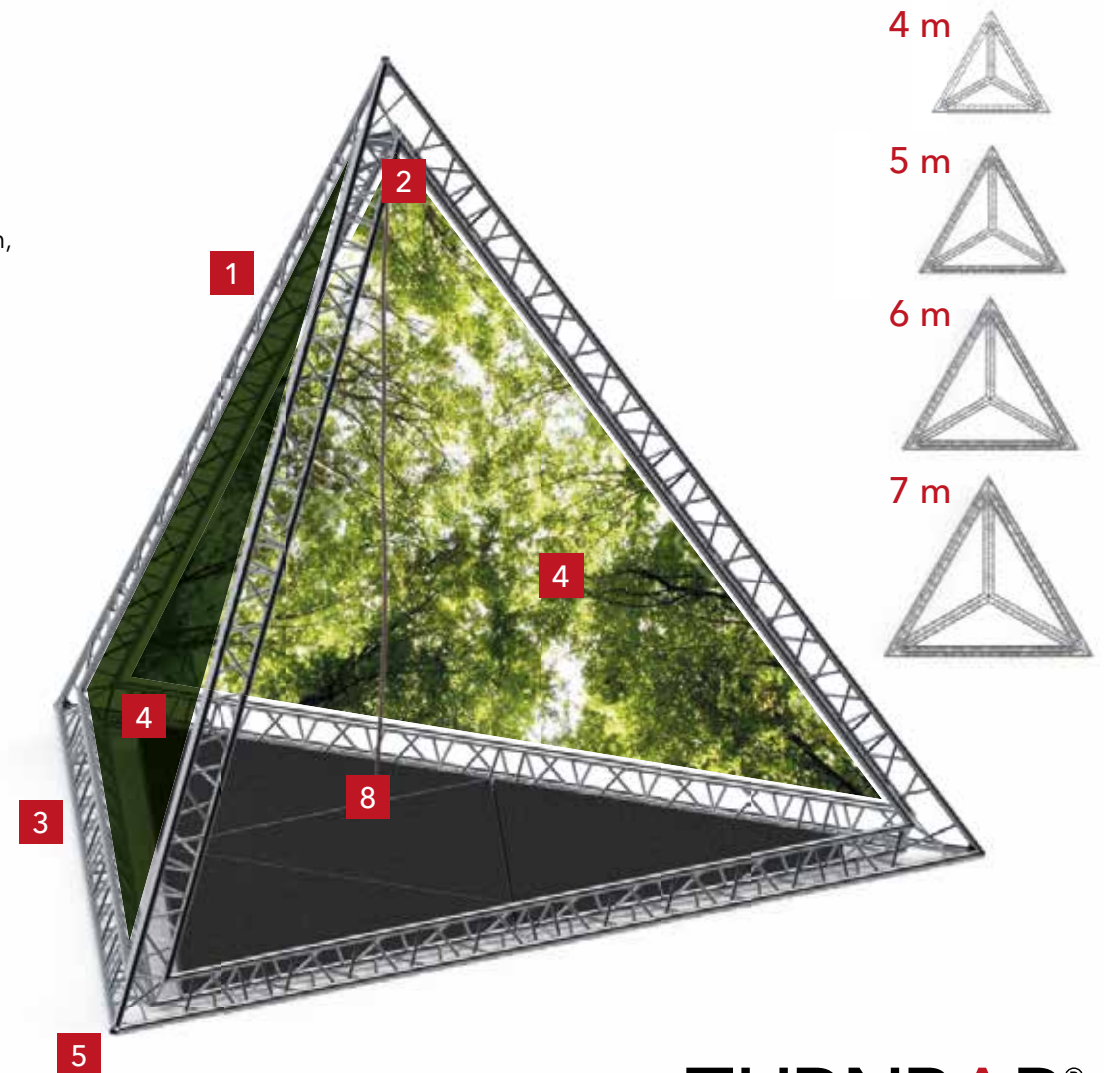

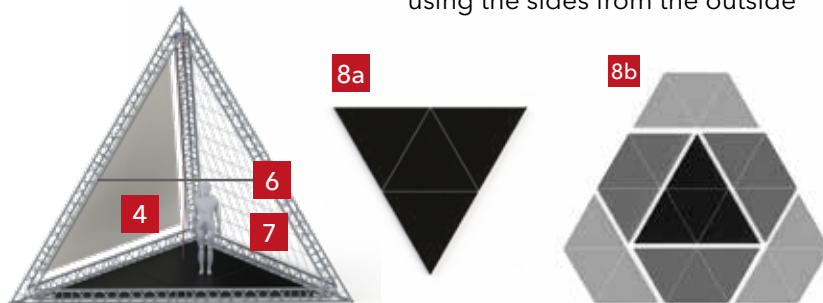

TURNBARairbar Acrobatics, Fitness, Aerial Yoga, Artistics, Aerial Dance, Workout, Pole Dance, ...

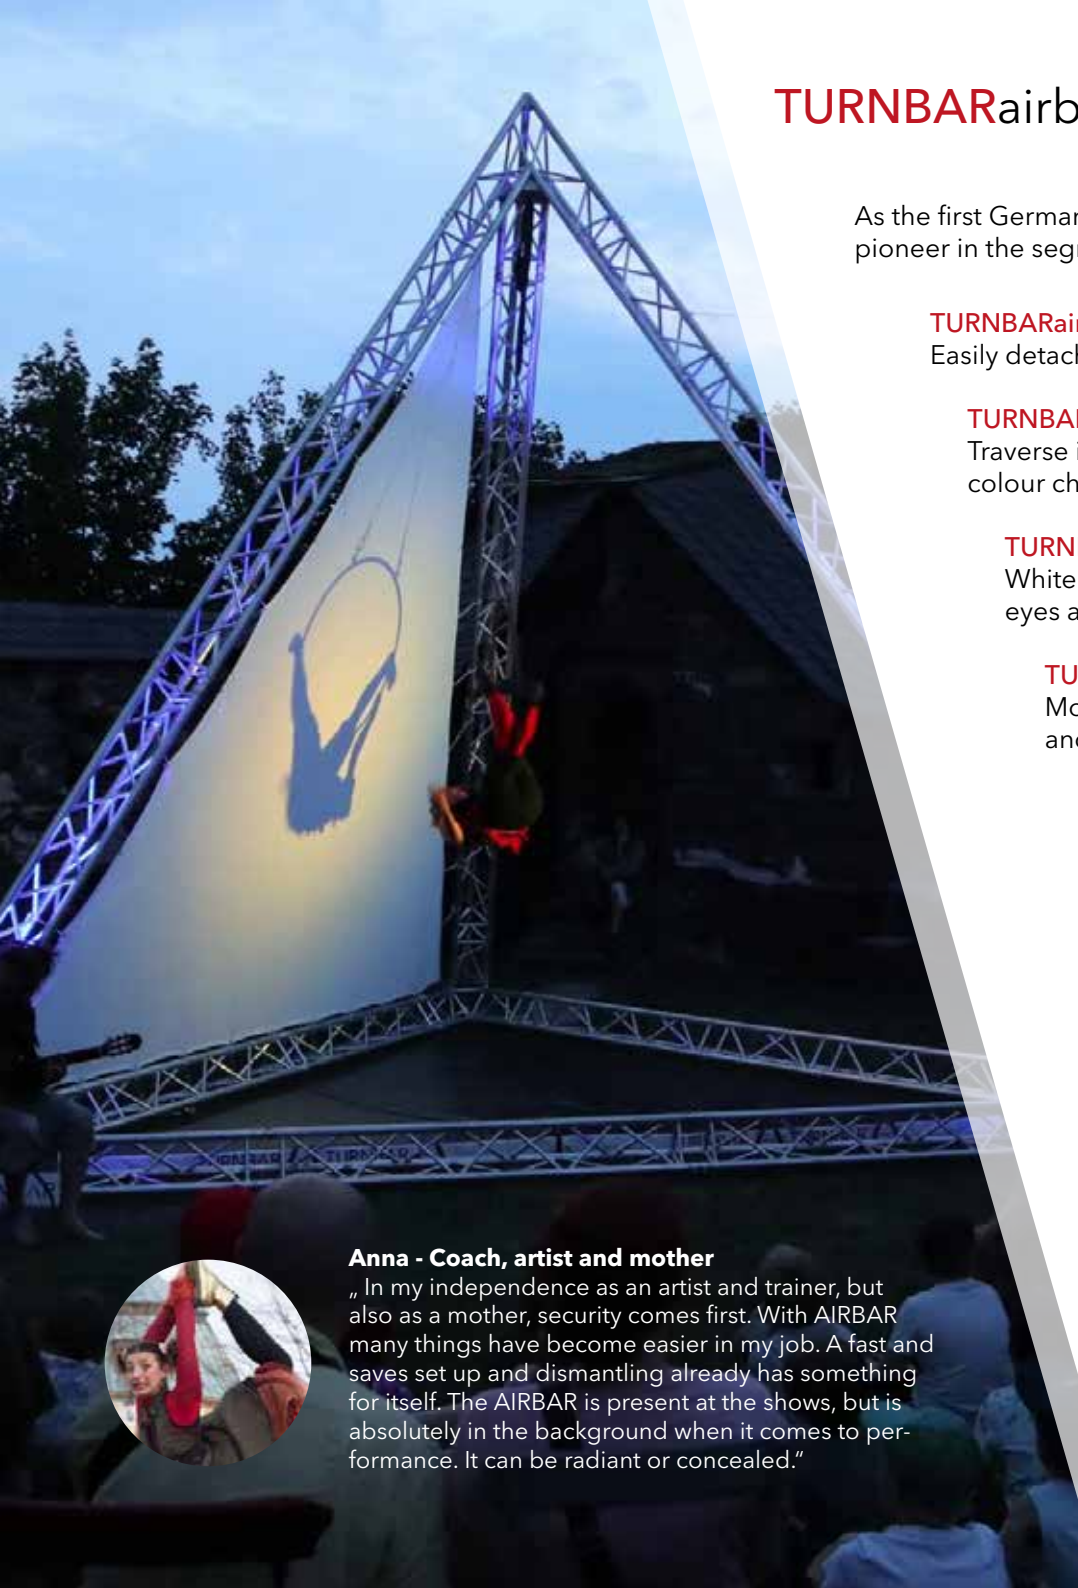

Optional accessories are available in different versions. For example, the nets are available in many colours and can be used for climbing or as a safety net. Depending on space and requirements, the AIRBAR can be set up in four sizes.

Anna - Coach, artist and mother

„ In my independence as an artist and trainer, but also as a mother, security comes first. With AIRBAR many things have become easier in my job. A fast and saves set up and dismantling already has something for itself. The AIRBAR is present at the shows, but is absolutely in the background when it comes to performance. It can be radiant or concealed.“
